RESPONSIBLE FOR ADMINISTERING POLICY:

Manager, Governing Board

BACKGROUND AND PURPOSE:

It is generally accepted utility practice in the United States that each customer pay his fair share for utility service. Each customer must pay his fair share for service used and for the availability of service. The UTILITY'S minimum bill covers the costs of the infrastructure and overhead to make service available. Each customer is charged a minimum bill regardless of whether the customer actually uses service during the billing period.

The UTILITY is run for the benefit of all present and future customers. While no customer shall be treated unfairly intentionally, no customer shall be treated in any way that compromises the interest of other current and future customers.

LIMITATIONS

The UTILITY is subject to various city, county, state and federal or other governmental agency requirements and has no discretion to set fees in a manner which would violate these regulations.

RECORD KEEPING DURATION

All records of fees shall be kept for a minimum of ten years.

OMISSIONS

This policy does not include any provisions for utility deposits which are covered in the Special Deposits Policy. The Governing Board reserves the right to establish new fees, rates, and charges and to modify existing fees, rates, and charges as it deems appropriate.

POLICY

If a customer moves, dies etc. from location, the new owner (be it an individual, bank etc.) will be given the option of honoring the contract or not. The UTILITY will pay all costs associated with the testing of the meter. If the meter tests accurate, the customer forfeits the meter testing deposit if the meter does not meet AWWA accuracy standards, the UTILITY shall refund the meter testing deposit to the customer and repair or replace the meter.
